

30 April 2013

Raeco's sustainability vision: To provide socially responsible solutions for our customers and our people through the products we source and the way we choose to operate, to protect our planet and care for our community.

Raeco's recent sustainability initiatives include:

- Changes to the packaging of furniture product to create efficiencies and reduce costs
- The encouragement of direct freight shipments from manufacturer to customer to reduce our carbon footprint, as well as reducing freight costs and lead times
- To ensure we have a strong and committed workforce, Raeco are focussed on empowering employees by developing them through training programs and process improvements
- A vital aspect of our ongoing viability as a company is ensuring the safety and wellbeing of our people at all times and to this end Raeco have implemented 'toolbox talks' for OH&S
- Raeco offset the carbon emissions from selected employee vehicles
- Raeco contribute to local and worldwide community development with donations to charities such as Oxfam in support of their literacy and water for schools programs and through the donations of product to set up schools in under-privileged countries
- Raeco use environmentally friendly packaging including BioWrap, a 100% biodegradable plastic wrap for our marketing materials and the use of cartons with a recycled content

Raeco are committed to ecological sustainability and will continue to undertake projects that improve efficiencies, reduce costs and deepen our focus on our customers
