Charcoal **CHA**

Vertiface® Velour  
Noir **NOI**

Vertiface® Velour  
Civic **CVC**

Vertiface® Velour fabric is Velcro® compatible and pinnable. Made from 100% polyester that is UV stabilised to provide resistance to colour fade and moisture resistant so that it won't stain, rot or breakdown. This is a safe, non-toxic, non-allergenic, non-irritant, recyclable and environmentally friendly option. Installation is as easy as 5 screws (supplied) drilled through the shelving post into the panel.

Colours are a guide only and due to variations in monitor settings, colours may not be accurate. For an accurate assessment of colours, you can request a swatch from Raeco®
