

# TABLE TOP LOCATOR TOOL

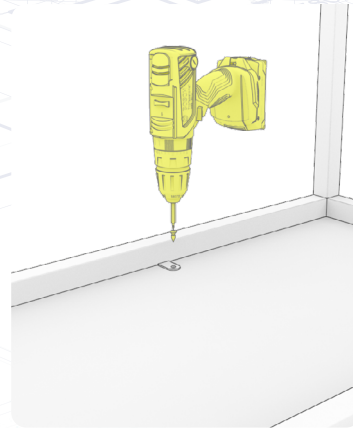

## INSTRUCTIONS 2021

Place the table top on the floor ensuring the top side is down in instances of side A/B tops.

Place the frame on the table top and use the locator tool to correctly space it from the edge.

Using the screws provided and a cordless drill. Fasten the frame to the top via the D-Tabs.

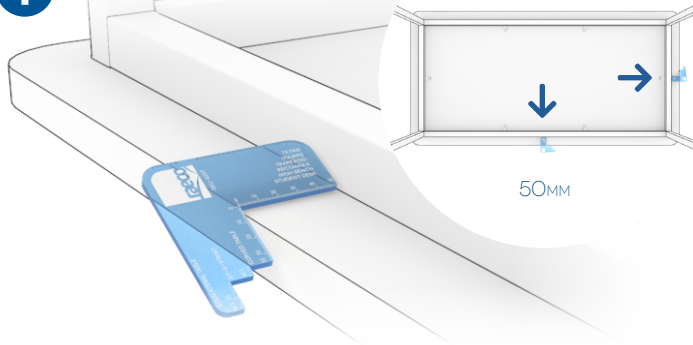

NOTE: SELF TAPPING SCREWS  
PILOT HOLES NOT REQUIRED.

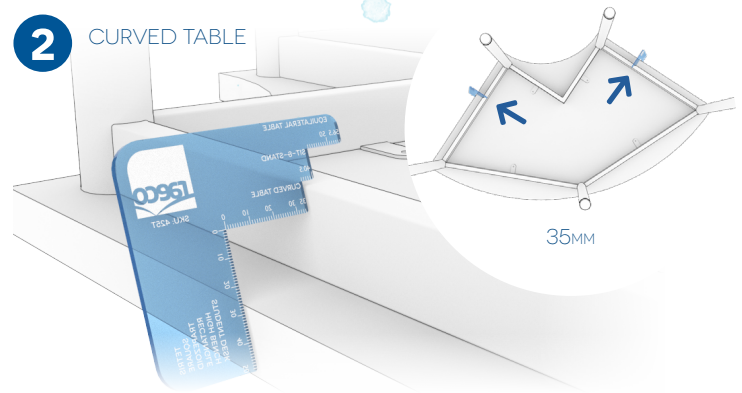

With the frame now attached, flip the table the correct way up and position as required.
