ACOUSTICS CUBE™

Autex Cube

- A lightweight and semi-rigid panel that has sound absorbing properties. Designed with solid colour throughout, Cube™ can be used in a large array of spatial design and interior solutions
- Containing a minimum of 45% post-consumer recycled material (PET bottle-flake); Cube™ is completely safe, non-toxic, non-allergenic and non-irritant
- Decorative and functional acoustic wall covering, creative medium and stand alone feature for education, retail and commercial interiors

VELOUR PINBOARD

- Vertiface Velour fabric is Velcro compatible and pinnable.
- Made from 100% polyester that is UV stabilised to provide resistance to colour fade and moisture resistant so that it won't stain, rot or breakdown.
- This is a safe, non-toxic, non-allergenic, non-irritant, recyclable and environmentally friendly option.
- Installation is as easy as 5 screws (supplied) drilled through the shelving post into the panel.
- Due to printing variations, please use these colours as a guide only
