

MAGAZINE HOLDER – ACRYLIC, WALL MOUNTED

These wall-mounted magazine holders are sold individually, making them ideal if you have a smaller collection.

The base plate is fabricated from 3mm thick, matte black acrylic that resists fingerprints. Mounted over this is a clear wallet fabricated from 4.5mm thick acrylic with smooth, flame-torched edges for additional safety. Stylish silver pins hold the two elements together and also securely mounts the holder to the wall.

Each holder accommodates approximately 3-5 publications, depending on thickness. To maximise impact, we suggest they be displayed in a grid format, approximately 10cm between each.

Black Plate Dimensions: 380mm x 380mm

Depth of Acrylic Wallet: The magazine holder can hold up to 40mm of Magazines
